European Business RAG Bot Solution

Who We Are?

NORAI is part of North Atlantic Ltd, a European innovative company based in Finland focused on developing AI solutions for European businesses of all size.

Security First Approach

GDPR-compliant AI solutions that prioritise security and transparency. From strategy to deployment, we deliver cutting-edge technology that's built to last, scale and lead responsibly.

The RAG Bot That Delivers

Multilingual

With all major languages covered and built-in support for well over a hundred additional languages, our solution is well suited to serve European business' different needs.

Speed to Data

Eliminate manual searching for the information from the documents and data. Save hours of work with instant access to the right information.

Safe & Secure

NORAI RAG Bot is fundamentally built different. It is made by Europeans for Europeans with security, compliance and data safety in the heart from the very start.

User Experience

No matter the use-case, whether as an internal knowledge base query tool or as a customer facing AI Assistant, the user's experience is the fundamental driving force.
